Murderers in Hiding in Corn Field and Posse is Waiting for Sheriff.

Hahnemann, Dec. 3.—Special to Telegraph—Peter Murray, who was in charge of the extra gang of the southern division of the C. & N. W. Ry. company, was murdered here just before noon today by two Italians who had been employed on his crew, the murder being committed with a heavy crowbar, with which they mashed his skull. The two are now in hiding in a corn field north of the village and the field has been surrounded by enraged citizens who are awaiting the arrival of Sheriff Wahl and his assistants from Sterling. The officers are hurrying here on a motor speeder.

Had Trouble With Them.

Murray had had some trouble with the two Italians early this morning regarding work to be done, but they had returned to work and nothing more was thought of the incident. However, just before noon the two crept up behind their victim as he was engaged at some task and crushed his skull with the heavy bar, the blow killing him almost instantly. The two then made their getaway, but were cornered in a corn field north of here and it was believed they can escape.

FINE HOTEL TO BE BUILT HERE

NEW OWNER OF THE NACHUSA HOUSE DETAILS HIS PLANS FOR REMODELING.

WILL BE FIRST CLASS HOUSE

Elevator, New Furniture and Floors, Hot and Cold Water and Telephone in Each Room.

M. E. Rice of Fort Wayne, Ind., owner of the Majestic theatre there and recent purchaser of the Nachusa House in Dixon, has written a letter to a Dixon resident describing the changes he expects to make in the local hostelry as soon as the lease of the present management expires and he takes possession of the old hotel, which is a historic landmark in Dixon.

Mr. Rice states that he will close the house for four months and will entirely rebuild it, beginning with the veranda in front, which will be a brick, steel and cement structure. It will be widened and will extend around the north side of the building.

The lobby, writing room and hall, back to the dining room on the main floor will be laid with mosaic tiling and a marble stair case will be put in leading to the toilets in the basement, which will be torn out and rebuilt with new plumbing, tile floor etc.

The plans also entail the complete rebuilding of the dining room. The iron columns now in the big room will be encased in hard wood, ceilings will be beamed and up-to-date lighting effects will be installed.

An electric elevator will be put in the building. The push-button type elevator which operates itself automatically responding to a button, is the style that will be installed.

New hard wood floors will be installed in all halls above the first floor. The building will be completely re-wired and new electrical fixtures will be installed. Hot and cold running water will be put in every room, large or small, in the building. All rooms will have telephone connections with the office. At least ten rooms will be fitted with private bath, perhaps more. The kitchen will be rebuilt and enlarged. Five or six sample rooms will be built in the basement and the embankment on both sides of the property will be leveled off to give the basement additional light and ventilation. The house will be completely refurnished, from top to bottom, with high grade furniture. The office and writing room will be furnished on a par with even the very best city hotels.

Mr. Rice states that he hopes to bring his family to Dixon some time during June or July and expects to rent a home near the hotel while the work on the building is going on and that he will probably live in a private residence even after the hotel is opened, for the sake of more room at the hotel.

VANDALS SHOOT VALUABLE FOWL

Glenwood poultry farm east of Dixon, occupied by H. B. Green, has recently been the scene of the shooting of valuable Indian Runner ducks and last Sunday they did the greatest damage when they wiffully slaughtered several fine white Runners and several chickens.

The experience has caused Mr. Green to adopt drastic measures, and in another part of this paper he has inserted a notice warning all hunters from his premises, and he acts as though he means business. The next vandal who tries to amuse himself at Mr. Green's expense will likely find himself in a lot of trouble. Mr. Green cordially invites visitors and will welcome all who care to come to his residence, and is always pleased to show visitors around his beautiful place and impart to them his knowledge on poultry raising.

THE DIFFERENCE IN GOODFELLOWS

IT DEPENDS ON WHO YOU ARE GOOD TO, WHAT KIND OF A GOODFELLOW YOU ARE

BE A GENUINE GOODFELLOW

Small Investment in the Goodfellow Fund Will Bring You Big Returns.

There are Goodfellows and good fellows. There is one breed of good fellows who get their title from their free-handed spending — of money that should go to the grocer, the coal man and the clothing man — on temporary and transient friends. Their friends are temporary and transient for usually this particular kind of good fellow is only temporarily and intermittently "flush." While his pay check holds out he's a good fellow to everyone except those he should be. He forgets about the wife or mother at home waiting up for him late at night, and lavishes his attention on "the bunch" with magnificent generosity, and when "hard times come a-knockin'" at the door, his finances are in a depressed state and it is around Christmas time, some real Goodfellow has to take his place as Santa Claus and see that the little children, the struggling wife and the aged mother get their share of Christmas cheer.

That is one reason why the genuine Goodfellow has a chance to work, but of course it is not the only one. Often the man of the house is doing his level best to keep food in the pantry and coal in the stove, but his big family and small pay, and perhaps sickness, are too big odds. That man needs the help and his kiddies deserve a Christmas. The "tin horn" good fellow who doesn't bring his salary home may not deserve sympathy himself, but his little kids are just as helpless and deserving as the family of the good man, and the Goodfellow club of Dixon is going to try hard to see that they all get something in their stockings on the morning of December 25th, 1913, as they did in 1912.

Notify the Goodfellow department of the Telegraph if you will furnish a Christmas to some little boy or girl. The investment is small, just whatever you want to make it, and the dividends are big.

BASKETBALL SEASON OPENS ON SATURDAY

The first basketball game of the Dixon high school's schedule will be played at the school gymnasium Saturday evening, the fast Byron school team being the Dixon players' opponents. COMMITTEE WILL HOLD MEETING

The physical work committee of the Y. M. C. A. will hold an important meeting Friday at 5 p. m. to consider proposed work in their department. DECEMBER TERM OF COUNTY COURT

## Dementtown Doings

Has any one here seen Ophelia? Dunne says Deneen is to blame for the high state tax rate of 70 cents; while the former governor says Mr. Dunne alone is responsible. How strangely interesting. This phase of conditions will no doubt relieve the tax payers, and they'll dig up cheerfully now that they understand.

Also it has been suggested that we turn the searchlight of this column in an effort to locate the sun. Therefore we ask if any of our readers have seen the great luminous center of our solar system.

### What Could He Do?

The story is being told of a Dixon man whose wife's inconsistency has the poor fellow up in the air most of the time. An example: One noon recently she chased him out of the house with a broom and then cried because he went to work without kissing her good-bye.

### Honesty?

During a recent series of revival meetings in Sterling, the announcement was made through the press that on a certain evening the evangelist would preach on the subject, "Hell, Its Location and Its Absolute Certainty," and added that Mr. Thomas Jones, Burlington, will sing "Tell Mother I'll Be There."

### Walsh-Carney Wedding Brilliant Clinton Ceremony

(From Davenport Times.) A brilliant out-of-town wedding of this Thanksgiving morning that is of interest in a wide circle of tricity friends, took place at Clinton at half after nine o'clock today, when Miss Clara Lucile Walsh, youngest daughter of Mr. and Mrs. A. Walsh, of Clinton, became the bride of Dr. Roscoe Patrick Carney, a well known young Davenport physician and surgeon. The event was solemnized in St. Patrick's church and the edifice was filled with a large company of relatives and friends. The sanctuary was banked in tropical greenery while pink Killarney roses in bouquets adorned the altars, making a beautiful floral setting for the bridal party.

At the hour Dr. Frank Isbell at the organ rendered the "Bridal Chorus" from "Lohengrin." The ushers led the way. They were the three brothers of the bride, M. A. Walsh of Clinton, Alfred E. Walsh of Davenport and C. H. Walsh of Burlington, with a family friend, Edward J. Dougherty of Davenport. The maid of honor, Miss Ruth Carney, of Dixon, Ill., sister of the groom, walked alone. The bride came last on the arm of her eldest brother, E. C. Walsh of Clinton, who gave her in marriage.

The groom, with his best man, J. W. Walsh, entered from the sacristy.

Rev. J. A. Murray, the bride's pastor, performed the marriage service impressively, the bridal couple standing before the high altar. Immediately afterwards they took their places in the sanctuary and solemn nuptial high mass was celebrated with Father Murray, the pastor as celebrant, Rev. Father Walsh of Marengo as deacon, and Rev. Father O'Connell, assistant at St. Patrick's, as sub-deacon. A vocal

quartet, composed of Miss Celeste Schoener, Miss Jennie Gleason, W. L. McArthur and Mr. Thompson rendered the Farmer mass. Mr. McArthur and Mr. Thompson sang in duet on Ave Maria. At the offertory Howard Carroll of Davenport rendered the "Sanctus" from the mass, and after the Agnus Dei he sang Aylward's "Love's Coronation." Eugene J. Walsh of Davenport, a brother of the bride, who was to have sung the solo after the mass, was unable to be present on account of illness.

The bridal-robe was an exquisite creation of Imperial Brussels net over white satin charmeuse, trimmed in rare Princess lace. The full court train of the charmeuse fell from the shoulders and was caught at the sides with tiny clusters of satin buds. The long tulle veil swept over and to the end of the train from a Juliet cap of the Princess lace, orange blossoms caught in the fringe of the cap forming a charming frame for the face. The cap was fastened above the forehead with a diamond crescent. She wore the groom's gift, a long bar pin of diamonds and pearls, set in platinum. Her flowers were a showy bouquet of lilies of the valley and maidenhair fern.

The maid of honor was in light blue brocade charmeuse, made en-traine, with a drapery of white satin. It was trimmed in shadow lace and cut steel buckles. She wore a picture hat of blue trimmed in blue plumes and ermine. Her only jewel was a pearl brooch, the gift of the bride, and her flowers were an armful of pink Killarney roses.

Mendelssohn's wedding march was rendered for the recessional as the bridal party left the church. The wedding breakfast was served at the home of the bride's father, on Third avenue, Clinton, for only the immediate members of the two families. The reception room, where felicitations were showered on the happy couple, was decorated in a profusion of pink Killarney roses in baskets and vases with palms and ferns. Tropical plants and smilax banked the mantel and the Killarney roses were intertwined and massed among the greenery. The breakfast table was adorned with bouquets of pink roses and ferns. An orchestra furnished concert numbers during the wedding breakfast.

### Feldkirchner-Wadsworth Wedding

One of the prettiest weddings of the season was solemnized at high noon yesterday at the home of Mr. and Mrs. James Feldkirchner of South Dixon, when their daughter, Miss Edna, became the bride of Harrison Wadsworth, son of John W. Wadsworth.

The bay window was a mass of green plants and vines and decorated in pink and white with a large white bell, trimmed with smilax, surrounded by a number of small white bells under which the bridal party stood. This room was converted into the ceremony room and here the wedding company of about sixty relatives were assembled during the ceremony.

After Miss Josephine LieVan sang "I Love You Truly, Dear," Miss Ruth LieVan, a cousin of the bride played "Lohengrin's Wedding March," while the bridal party took their place in the bay window. Linda Wadsworth, the flower girl carried a basket of pink and sweet peas. She was dressed in white and wore a sash and ribbons to match.

Wesley Wadsworth, the ring bear-

er carried a large white chrysanthemum, bearing a ring. Rev. L. B. Tobias, pastor of their church at Emanuel, performed the impressive ring service.

During the congratulations, Miss Ruth LieVan played, "O Promise Me." Immediately afterwards an elaborate two course dinner was served.

The dining room was prettily decorated in pink and white streamers and caught up by small white bells and smilax.

The waitresses were five young ladies, Misses Iva and Bessie Feldkirchner and Addie Talmadge, cousins of the bride and Miss Josephine Rhodes, a niece of the groom, and Miss Myrtle Hain, an intimate friend of the bride's table were seated at the immediate family; quartet tables were placed in other rooms. A large bouquet of pink and white carnations were used as a center piece on the bride's table.

The bride's gown was a beautiful white silk marquisette over messaline silk. She carried bridal roses.

The young couple left on the afternoon train to spend their honeymoon with relatives in Iowa and Kansas.

The bride's going away gown was of blue with hat in harmony.

The young couple received many presents, among them being two checks, given by the father of the bride, and the father of the groom, the latter of which was given to purchase a nice range.

Both young people are highly respected by friends and relatives. The bride is a popular young lady who has taken active part in work in her community during the greater part of her life. She is a graduate of South Dixon high school of the class of 1909.

The groom is a prominent young man of sterling qualities.

Both of them will be missed by a large circle of friends who extend to them their heartiest congratulations.

## MORE MAY STRIKE AT INDIANAPOLIS

Plan for General Sympathy Walk-out Will Be Considered Today.

## SPECIAL POLICE KILL MAN

Four Others Are Wounded When Mob Attempts to Stop Wagon—Congress to Investigate Labor Conditions in Capital City.

Indianapolis, Ind., Dec. 3.—An effort to call a general strike in sympathy with the teamsters and chauffeurs' strike was started at a meeting of the teamsters' union. No definite action was taken, it being decided to wait until the union officers had conferred with the leaders of the Central Labor union. The question will come up again late today.

The first fatality of the strike occurred when a crowd interfered with an ice wagon in charge of six men on whom special police powers had been conferred. When the crowd began throwing bricks and tried to prevent the wagon moving the special officers shot, killing Claud Lewis, a negro elevator man, and wounding four others, one fatally.

The special officers were taken to the police headquarters, but were released without being slated on their own recognizance.

Another crowd was fired upon by William Whorton, a negro, when the wagon, owned and driven by himself, was attacked. Jack Long, a teamster, was wounded in the right leg. Whorton was arrested. There were several other minor disorders, but no one was seriously injured.

The police continued making numerous arrests. Among those taken in custody was Henry Friedman, a prominent labor and political leader and wealthy. He was charged with interfering with an officer. He was released later.

A proposed parade of strikers did not materialize. Mayor Wallace, as soon as he heard of the plan, issued a proclamation order for the police to stop any attempted demonstration. The police kept the crowd constantly on the move and did not give the parade a chance to form.

Garbage Removal Serious Problem.

The accumulation of garbage is becoming a serious question. No garbage had been collected in the city since Saturday. One hotel notified the city board of health it had 100 barrels of garbage on hand and asked what to do with it. City Sautarian Herman Morgan has asked that all residents sprinkle lime over the garbage to prevent the possible outbreak of disease.

An appeal for a congressional investigation into labor conditions in Indianapolis was telegraphed to United States Senators John W. Kern and B. F. Shively.

## BAR LONG CURRENCY DEBATE

Senators Refuse to Agree on Bill for Long Periods.

Washington, Dec. 3.—Without formal action the Democrats of the senate put into operation the drastic program they had adopted for consideration of the administration currency bill. The Republicans, after two hours of debate, prevented a vote on a motion calling at once for daily sessions lasting from 10 a. m. until 11 p. m., with a two-hour dinner recess. The majority, however, pressed the bill forward at every opportunity, and kept the senate in session at night. When Senator Kern presented a resolution designed to make the senate sit 13 hours a day the Republicans protested, declaring such action would prevent intelligent discussion of the bill. Senator Norris tried to get an agreement for shorter daily sessions with an agreement to vote on the bill by December 20, but this was defeated. The Kern resolution went over.

Bingham, Utah, Dec. 3.—One hundred pounds of sulphur an hour has been burned in the Minnie mine in an attempt to kill or smoke out Ralph Lopez, the Mexican bandit, who has killed five men since he became a fugitive from justice 12 days ago, after murdering one of his countrymen.

## THE PRESIDENT'S MESSAGE.

President Woodrow Wilson has startled even his friends, the democrats, with the decidedly progressive ideas in his first regular message to congress. Mr. Wilson has apparently concluded to appropriate the Bull Moose party, platform and all. He is evidently a close student of public opinion and perchance he has his ear to the ground and his mind fixed on 1916, but whether or no, he is playing politics or listening to the dictates of his own clear mind and conscience, he is right about many of the features of his message.

His suggestion of direct primaries for the nomination of president of the United States is a center shot. Presidents should be nominated by direct primary vote of all the people, not by a few hundred men who do not really represent the people and who are themselves controlled by political dictators whose selfish, ruinous rule has made all honest men sneer at the word "politics."

Why should a president of this republic be nominated in any manner other than the most representative?

Mr. Wilson also suggests that the party conventions be held as heretofore for the purpose of forming platforms, not nominating candidates, and that instead of the former delegate plan, congressional and senatorial nominees, senators whose terms have not expired, members of the national committee and the presidential nominees themselves form the personnel of the convention and originate the platform that they are to run on and support if elected. The plan seems sensible. It seems as though it would be a better plan to have the men who are to run be personally responsible for the platform on which they stand. It will not then be a case of the candidate accepting any platform the delegates put up, but merely for the sake of being allowed to

to run on that particular ticket and not because they agree with the platform.

One sentiment expressed by the president does not receive unanimous endorsement—his plans for the Philippines. Mr. Wilson wants to give them their independence in the near future.

Who would benefit beside Japan? Not the Filipinos. We can do the Philippines more good by holding our control there, civilizing the inhabitants and developing their country. As Mr. Wilson says, we should not regard the Philippines as an object for despoilment. The islands are ours, won at great cost, and they should be conserved and built up. We have no more right to loot the Philippines than Illinois. But how will the islanders be benefited by giving them unrestrained freedom? If we can make them good citizens of the United States we can give them more freedom than they could get under any other form of government. Great Britain has given the world some good examples of what a great nation can do for her colonies. England never lets them go; she civilizes and modernizes them.

STREET IN CHICAGO  
SINKS SIX FEET

Soil Disturbance Between Masonic Temple and New Field Store Causes Alarm.

## BIG WATER MAINS BREAK

Score of Passengers on Trolley Car Have Narrow Escape—Coach Passed Just as Cave-In Began.

Chicago, Dec. 3.—Randolph street rose last night, lifting a street car full of people on its surface, then slowly sank, broken, leaving a cavity 125 feet long, nearly as wide as the street, and between eight and ten feet deep. It happened directly in front of the new structure of the Marshall Field building at Randolph street and Wabash avenue.

The cave-in occurred a few seconds after an Archer avenue car containing more than a score of passengers had traversed the track directly over the broken main. At one point the pavement sank to a depth of 12 feet below the street level.

Crowd Drawn to Scene.  
The break occurred at 10:55 o'clock, at an hour when several loop theaters were pouring forth their crowds into the streets. People thronged to the scene of the cave-in, attracted by swiftly flying reports that the Marshall Field building and the Masonic Temple were in danger of collapsing and falling into the streets.

Fire companies and squads of police arrived early on the scene to shut off the water and to keep the crowds outside the danger zone.

The first cave-in occurred directly in front of the entrance of the new addition to Marshall Field's store which is being erected at the southwest corner of North Wabash avenue and East Randolph street. Scores of laborers who were at work on the structure fled to the street in terror and the foreman gave them their choice of returning to their duties or "handing in their time." About half of them preferred to lose their jobs.

125 Feet of Pavement Sinks.  
At midnight about 125 feet of Randolph street, from Wabash avenue west, had sunk. The average depth of the cave-in was about six feet from the old street level.

When Battalion Marshal P. J. Egan arrived on the scene an Archer avenue car was on the track. A moment later, just as the car turned into State street, the first big sag came, the street dropping from three to eight feet for a distance of about 50 feet.

This break caused an eight-inch main leading into the Marshall Field store and a dozen or more gas mains to break. Crews from the central emergency bureau of the water pipe extension arrived shortly after and shut off the water and gas at Wabash avenue and State street, stopping the flood.

Negro Caught in Flood.  
A negro laborer at work in the sub-basement of the new Marshall Field addition was caught in the flood and sank to his ears in mud and water. He was pulled out by his companions.

Engineers employed by John Griffith & Sons, contractors, who are building the Marshall Field addition, reported that the new 12-story structure was not in danger. They also declare their belief that the old Marshall Field building and the Masonic Temple, a 21-story structure, were in no danger of collapse.

## NAVAL HOLIDAY IS ASKED

Hensley Resolution Cites High Cost of Living.

Washington, Dec. 3.—The house for hours debated the Hensley resolution to commit the United States to the Winston Churchill plan for an international year's holiday in naval construction, which is approved by President Wilson, and the advocates of the project predicted adoption of the resolution in the house some time Friday.

Consideration of the matter will be resumed Thursday, with both sides—the advocates far outnumbering the opponents—prepared to continue the debate.

Representative Hensley of Missouri, author of the measure, in urging its adoption pointed out that while the cost of living was arousing protest only two per cent of the United States revenues is devoted to the benefit of agriculture, while 60 per cent goes to defray the cost of the past wars and to prepare for future wars.

## How to Detect the Alum Baking Powder

"Which are the alum baking powders; how can I avoid them unless they are named?" asks a housekeeper.

Here is one way: take the can of a low-priced powder in your hand and read the ingredient clause upon the back label. The law requires that if the powder contains alum that fact must be there stated. If you find one of the ingredients named alum, or sulphate of aluminum, you have found an *alum baking powder*.

There is another and a better way. You don't have to know the names of the alum powders. Use Royal Baking Powder only; that assures you a cream of tartar powder, and the purest and most healthful baking powder beyond question.

## SEVEN GENERALS FORSAKE HUERTA; APPEAL TO VILLA

Plea for Peace May Mean Whole of Northern Mexico Will Go to Rebels' Cause.

### THOUSANDS FLEE TO U. S.

Women and Children Join Exodus on Foot—One Man Carries \$2,500,000 With Him—Oil Concerns Desert Federals.

Juarez, Mex., Dec. 3.—Seven generals of the Mexican federal army are ready to surrender and the backbone of the Huerta dictatorship in the north has been broken. A peace commission arrived in Juarez, bearing terms of the surrender.

The terms indicate that the backbone of the Huerta dictatorship is broken, for not only Gen. Salvador Mercado, who was the military governor of Chihuahua and commander-in-chief of Huerta's northern armies, but six other generals offer to surrender.

While General Villa is considering the terms Mercado and his troops, escorting thousands of citizen of Chihuahua, are fleeing toward the American border. Villa has troops in pursuit of Mercado's men. At the same time he is planning to march on the City of Mexico.

**Federals Quit Guaymas.**  
The simultaneous evacuation of Guaymas and other federal strongholds is believed by the rebels to be the result of a concerted decision to abandon the whole of northern Mexico to the Carranza forces.

The peace proposal was sent by General Mercado to General Villa through Federico Moya, civil governor of Chihuahua, appointed ad interim. With it came an appeal signed by all the foreign consuls in Chihuahua that Villa give police protection to the citizens.

**Seven Generals Quit Huerta.**  
The generals who signified through General Mercado their willingness to surrender are: Salvador Mercado, Pascual Orozco, Jose Ynez Salazar, Marcello Caraveo, Jose Manzanilla, Blas Orpinal and Landa.

The peace commission proposed to General Villa that all noncombatants who sought safety by fleeing to the border be permitted to go without being fired upon and that all federals in Chihuahua City, be pardoned. It also asked clemency for federal officials, but it is thought the federal generals will seek safety by crossing the border into the United States, possibly near Ojinaga.

**Gives Reason for Surrender.**  
The commission bore a proclamation signed by General Mercado, which read:

"Under the circumstances which have existed in Chihuahua it has been deemed necessary for the federal troops to evacuate. I leave in charge Federico Moya, a person who is not identified with politics and who is therefore qualified to give full protection to foreigners.

"It is impossible to remain here longer, as there is no money with which to pay the troops."

The commission started back for Chihuahua with Villa's assurances that people of all classes in the city, including federal police, would be protected and that he would dispatch troops to garrison the place as soon as possible.

**Population in Exodus.**  
Fleeing over the desert and pursued by Villa's rebels, several thousand persons, including the rich Creel and Terrazas families, who deserted Chihuahua City in fear of a rebel attack, were reported to be nearing the United States border. Among the refugees is Luis Terrazas, head of the wealthy Terrazas estate, who is said to carry 5,000,000 pesos which he withdrew from Chihuahua banks. The caravan, composed of men, women and children, was described as being more than a mile long.

**Oil Companies Against Huerta.**  
City of Mexico, Dec. 3.—Preferring to incur the displeasure of the Huerta government to a practical manifestation of the rebels' wrath, two oil companies canceled their contracts for supplying the National railways with fuel oil. These were the Cowdray interests and Huasteca Oil company. The Waters-Pierce company, however, is still considering what to do.

This cancellation is regarded as one of the most serious blows dealt the government, because it is likely to bring suspension of all railway traffic, which would interfere with military operations.

TO MAKE STATUE OF PHIL SHERIDAN

There is to be erected an important piece of sculpture on one of the finest sites in Chicago which should be a distinguished and interesting work to do justice to its opportunities. The site selected and acquired is a triangular piece of land created by Sheridan road and the work is to be a monument to Gen. Philip Sheridan, to cost \$150,000.

Charles J. Mulligan and Louis Sullivan have been chosen to do the work.

**Well Known in Chicago.**  
The former is a well known sculptor, an instructor at the Art Institute, and of the genial, winning type that seems exclusively Irish. He has done some local work. A piece called "The Rail Splitter" in Garfield park and "The Miner's Home Coming" in Humboldt park are both his, while the Illinois monument on the Vicksburg battlefield is considered by many as the finest piece of sculpture there. A monument of his at Vincennes commemorates George Rogers Clark and his famous capture of Vincennes, while another at Edwardsville in this state was erected recently to celebrate the centennial of the first town to be incorporated in Illinois. Most of Mr. Mulligan's work has been in the erection of rather heroic sculpture. His coadjutor, Louis Sullivan, is a well known Chicago architect, a man whose personality is stamped on many of the finest buildings. Mr. Mulligan has many friends in Dixon.

**ERUPTION ALL OVER CHILD'S BODY**

Began With Small Red Spots. Cried Almost Day and Night. Used Cuticura Soap and Cuticura Ointment. Well in One Week.

R. F. D. No. 2, Jackson, Mo. — "Our daughter who is ten months old was suffering from an eruption all over the body. In the beginning they were small red spots and afterwards turned to bloody sores. We tried all sorts of treatments but they did not procure any relief for our child. She had no rest day or night and we tried everything to procure relief for our baby. She cried almost day and night and we scarcely could touch her, because she was covered with sores from head to foot. "We had heard about the Cuticura Soap and Ointment and made a trial with them, and after using the remedies, there is to say, the Soap and the Ointment, only a few days passed and our child could sleep well and after one week she was totally well." (Signed) August F. Bartels, Nov. 25, 1912.

**TO REMOVE DANDRUFF**

# The Americans In Panama

Story of the Panama Canal From Start to Finish

By WILLIAM R. SCOTT

Published by the Statler Publishing Company,  
601 Fifth Avenue, New York City.  
Copyright, 1912 and 1913, by William R. Scott.

CHAPTER XIV.  
Commissary — Quarters — Subsistence.  
URING the first year of American operations in Panama the problem of food and merchandise supply for the army of workers was not worked out. Chief Engineer Stevens in 1905 turned his attention to this problem

1912 did a business amounting to \$5,702,355.98.  
General headquarters are at Cristobal, on the Atlantic side. The steamships of the Panama Railroad line every week replenish the food supplies with reasonable offerings from the American markets. The scope of the operations includes a laundry, bakery, ice

No cash sales are made at the commissary. Employees are issued coupon books in value from \$2.50 to \$15 and containing coupons ranging in face value from 1 cent to 25 cents. Enough coupons are torn out by the clerks to cover each purchase. At the end of each month the value of the coupon books is deducted from the employee's salary.

The quantities of various articles handled by the commissary in the year being reviewed were as follows: Eggs, 622,000 dozen; butter, 429,267 pounds; meat, 9,241,838 pounds; poultry, 554,028 pounds; milk and cream, 86,466 gallons; coffee, 329,431 pounds; flour, 16,638 barrels; ice, 33,267 tons; ice cream, 110,208 gallons.

One central laundry is operated for the white or gold employees. In 1911 there were 7,260 patrons and 3,581,923 pieces were laundered. Patrons deposit their bundles at the branch commissaries in the respective towns, and they are collected for shipment over the railroad to Cristobal. By this centralization of work the cost is from 30 to 50 per cent lower than for similar work in American cities. Cleaning and pressing are done for both men and women's clothes at low rates.

Early in 1905 the commissary advertised free quarters to both married and bachelor employees as a special inducement to come to the canal zone. Thus in addition to high pay the employees have no house or room rent to pay. This alone constitutes a sharp increase in an employee's income over what he could earn in the United States.

THE END.

## "CASCARETS" RELIEVE SICK, SOUR STOMACH

Move Acids, Gases and Clogged Waste from Liver and Bowels

Get a 10-cent box now.

That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, dizziness and sick headache, means a disordered stomach, which cannot be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any.

Try Cascarets; they immediately cleanse the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels. Then your stomach trouble is ended. A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular for months. Don't forget the children—their little insides need a good, gentle cleansing, too.

GATUN LOCK GATES AND GATUN DAM SPILLWAY.

as one upon the proper solution of which would depend satisfactory conditions of living for the canal workers. By April, 1907, when he resigned, the present commissary and hotel systems, as well as the system of housing the employees, which challenge the admiration of the tourist, had been created, and all that was left to Colonel Goethals to do in this phase of the task was to enlarge the systems as the organization expanded.

Owing to part to the immense quantities in which all articles are bought and the absence of a grasping policy as to profits, the canal employees customarily buy almost everything more cheaply than the same merchandise sells for in the United States.

For one reason there is no tariff in the canal zone. Foreign made goods are imported without the expense to the consumer that the high protective duties at home necessitate. Irish linens, English and Scotch cloth, French perfumery, Swiss and Scandinavian dairy products and a wide variety of other European manufactures make the commissary, with the American merchandise in stock, a great department store which, in the fiscal year

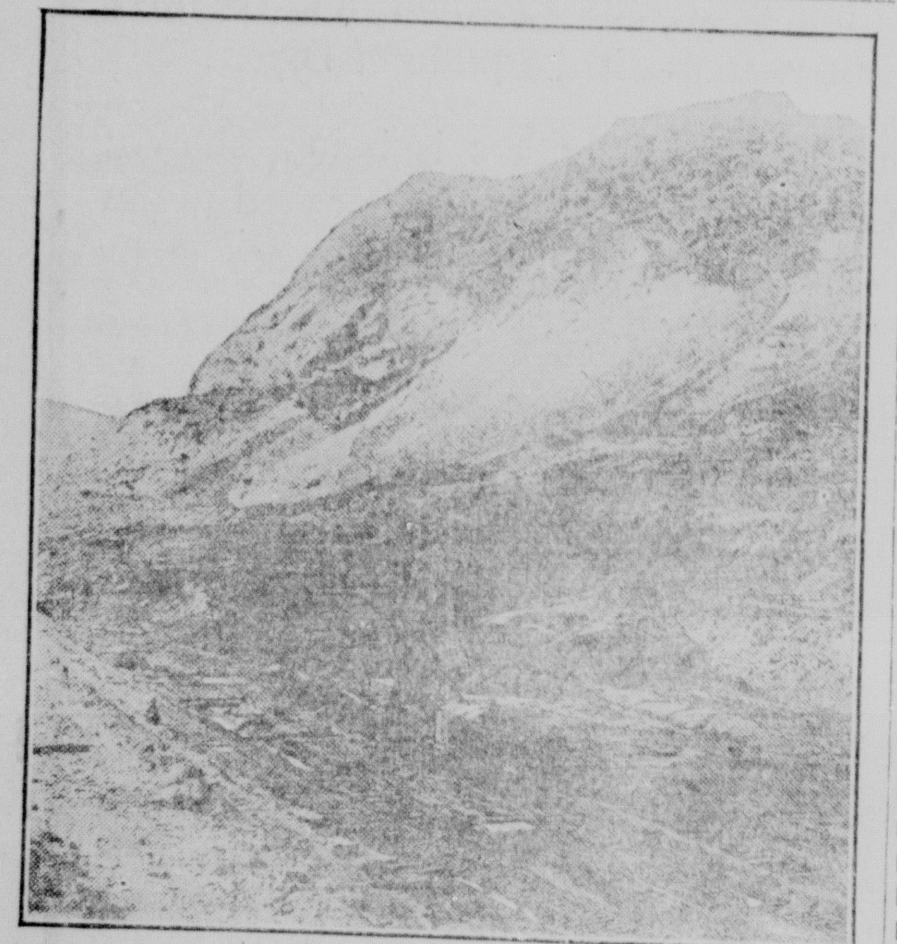

cream plant, ice factory, cold storage, coffee roasting plant and laboratory for making extracts.

The year 1911 is typical of the scale on which the commissary has been operated since 1906. Importations of principal commodities were as follows:

Groceries	\$1,278,594.73
Hardware	86,768.36
Dry goods	68,490.18
Drugs and shoes	154,158.39
Boats and other	157,392.97
Cold storage supplies	9,830.48
Furniture	182,090.36
Raw materials	216,276.12
Paper, stationery, etc.	54,579.06
Total	\$4,397,792.06

These importations do not represent the total transactions of the commissary for that year, as the stock on hand and located on the isthmus ran the volume of business to \$5,754,955.09.

Of this amount the commission paid \$1,625,348.77 for supplies used in the hotels, messes, kitchens and elsewhere, and \$3,069,258.01 represents the amount of the total which was paid by employees using coupon books. Nineteen stores were operated in as many settlements and towns, and the average monthly business was \$479,579.09.

CUCARACHA SLIDE IN CULEBRA CUT, INVOLVING FORTY-SEVEN ACRES.

The slide at Cucaracha, near the town of Culebra, involves forty-seven acres and is the most troublesome of the numerous slides in Culebra cut. The French noted this earth movement as far back as 1884. Cucaracha in Spanish means cockroach.

## CONFIRMED PROOF

Residents of Dixon Cannot Doubt What Has Twice Been Proved.

In gratitude for relief from aches and pains of bad backs—from distressing kidney ills—thousands have publicly recommended Doan's Kidney Pills. Residents of Dixon, who so testified years ago, now say the results were permanent. This testimony doubly proves the worth of Doan's Kidney Pills to Dixon kidney sufferers.

J. B. Clark, 722 Highland Ave., Dixon, Ill., says: "I had kidney complaint and backache and the doctors seemed unable to do anything for me. Finally I read of Doan's Kidney Pills and got a supply at Leake Bros. Co.'s Drug Store. This remedy cured me and I have not had any serious trouble since. I consider Doan's Kidney Pills worthy of the highest praise and I am willing to confirm the statement I gave in their favor some years ago."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Clark had. Foster-Milburn Co., Props., Buffalo, N. Y.

## SEES SECOND MEXICO

Former Philippine Head Fears  
for Islands.

Ex-Gov. Forbes Declares Trouble Will  
Result If U. S. Withdraws  
Control.

Boston, Dec. 3.—W. Cameron Forbes, former governor of the Philippines, delivered an address here before the City club, and in closing he asked: "Shall we make a second Mexico of the Philippines?" He defended the policy the United States had pursued and warned against premature control over the dependency.

"Let us not let go the firm anchor of the assured sovereignty of the United States," said Mr. Forbes, "and try to tie up to any silly rope of sand such as 'neutralization'."

"How, if we give up control, are we to protect the lives and property of the citizens of the signatory powers to the agreement? To show you the position we should then be in, I have only one question to ask: Is not one Mexico enough?"

"President Wilson has started upon a new policy in the islands. He has given the Filipinos a majority of the commission and appointed them to a few other places which previously were held by Americans. We should take the position of 'hands off' and, with suspended judgment, let the policy show what the result will be."

"The premature withdrawal from the islands and the premature relinquishment of control, however, will undo the work we have done, and return these people to the bondage from which we have partly delivered them."

## SAYS DR. KNABE KILLED SELF

Defense Offers Alibi for Dr. W. B. Craig.

Shelbyville, Ind., Dec. 3.—The defense in the trial of Dr. William B. Craig for the alleged murder of Dr. Helene Knabe, attacked the state's case when Henry N. Spain of counsel for Doctor Craig said witnesses would swear that the accused man was elsewhere until a late hour, at least, on the night he is charged with having killed Doctor Knabe in her flat. The attorney made the opening statement for the defense, saying he would show the woman physician killed herself.

Four physicians, called by the state, testified that they had been summoned to Doctor Knabe's apartment on the morning her body was found there. They described the wound in the woman's throat and the cut on her left arm.

The state has contended that the latter wound was received by Doctor Knabe in a futile effort to ward off the blow dealt by her slayer.

According to the theory on which the defense based its cross-examination, she inflicted the wound on herself in the convulsive movements preceding death.

Washington, Dec. 3.—Secretary of the Treasury McAdoo, in his annual report, made public today, tells how his department restored confidence in the financial world twice during the year. The first instance was soon after the convening of the special session, when he announced he was ready to deliver \$500,000,000 in emergency currency to the banks. Again in August he offered to deposit for crop-maturing purposes \$46,000,000 in national banks in those parts of the country where it was needed. Estimates for the fiscal year 1914 show a surplus of \$34,100,000, not allowing for \$41,000,000 which may be paid out for the Panama canal.
